

Friday

Dear family:

I never was so busy - I have to write 8 summaries on 8 chapters in Education - beside writing up 20 high school problems, beside studying for History & Psyc. exams - Don't expect many letters this week - M + I are working night & day it's terrible. Mr. Jessup came down to see us a little while last eve - He surely was nice I believe he is friendly all right - Marian we got the music you sent gee; I would be proud if I were you. Did I tell you I'm going to take a course in Art this fall?

A week from today we will start home & get there Sat evening - and you will then have the burden of the Phelps family for about a month - I hope you are looking forward to it as much as

we are - The apt house new is  
slow - but it couldn't be built until  
Spring so I guess we can't rush  
things. We are both well - I  
haven't seen the doctor yet, maybe  
won't now till fall -

Must get busy - you can't  
imagine the load on my mind  
because of this work -

Hot & love to all  
will see you soon  
June

P.S. Grandma M<sup>c</sup> wanted us to  
come that way & have a meal with  
them - M said, well go home & then  
take Carrie over some Sunday &  
spend the day, you tell her  
that when you write will you.  
I'm too busy

J
